

DENEL TECHNICAL ACADEMY

# FLY HIGH WITH A QUALIFICATION FROM THE ENGINEERING & AVIATION TECHNICAL TRAINING LEADER

With more than 40 years of experience the Denel Technical Academy has a well-established track record in Apprenticeship Training. The Academy is an Aviation and Engineering apprenticeship training institute offering various technical trades. DTA is internationally recognised with a large footprint on the African continent.

Courses are approved and accredited by the South African Civil Aviation Authority (SACAA), the Transport Education and Training Authority (TETA) and the Manufacturing, Engineering and Related Services Training Authority (merSETA) to offer training in accordance with the Competency-Based Modular Training system. This ensures that apprentices are adequately trained, both practically and theoretically, to allow them to continue with workplace training to qualify as artisans.

Denel Technical Academy offers training to prospective apprentices in the following trades :

- Aircraft Avionician
- Aircraft Electrician
- Aircraft Instrument Mechanic
- Aircraft Mechanic
- Aircraft Radiotrician
- Aircraft Structural Worker
- Electrician
- Fitter & Turner
- Machine Tool Millwright
- Toolmaker & Jig Maker
- Turner & Machinist
- Welder
- CNC Training
